

NEW PRODUCT LAUNCH

OXY-FUEL BRAZING OUTFITS

A Brand New Selection for Cutting, Brazing, HVAC/R , and Plumbing Applications.

FEATURES :

- ▶ Cuts up to 75mm, welds up to 9mm.
- ▶ Stainless steel needle valves for precise flame adjustment.
- ▶ **Lightweight design provides more comfort.**
- ▶ Forged brass head and body for maximum strength.
- ▶ Unique portable tote design for easy carrying during operation.
- ▶ Rear entry regulators for better balance on small cylinders.
- ▶ **With all equipment necessary to braze except of cylinders.**

VMCW-11P

Model		VMCW-11P	
Torch Handle		VM-201 (3/8"-24N)	
Cutting Attachment		VM-202	
Check Valve		88-6FGR (3/8"-24 RH) & 88-6FGL (3/8"-24 LH)	
Oxygen Regulator		313-6M	
Acetylene Regulator		313-1.4M	
Tips	Welding	JVM-W(0)	
	Cutting	3-101(0)	
Accessories		Twin Hose: 12.5Ft 3/16" w/fittings, Spark lighter, Goggles and Tip Cleaners.

HCW-12P

Model		HCW-12P	
Torch Handle		19-6 (9/16"-18 N)	
Cutting Attachment		36-2	
Mixer		H-19-2E / D-50-C	
Check Valve		88-3FGR (9/16"-18 RH) & 88-3FGL (9/16"-18 LH)	
Oxygen Regulator		313-6M	
Acetylene Regulator		313-1.4M	
Tips	Welding	1390-0	
	Cutting	3690-1AC	
Accessories		Twin Hose: 12.5Ft 3/16" w/fittings, Spark lighter, Goggles and Tip Cleaners.

AFCW-13P

Model		AFCW-13P	
Torch Handle		AF-411 (5/8"-18N)	
Cutting Attachment		AF-412	
Mixer		AF-413	
Check Valve		88-3AR1 (5/8"-18 RH) & 88-3AL1 (5/8"-18 LH)	
Oxygen Regulator		313-6M	
Acetylene Regulator		313-1.4M	
Tips	Welding	AG-W(2)	
	Cutting	AFN-1	
Accessories		Twin Hose: 12.5Ft 3/16" w/fittings, Spark lighter, Goggles and Tip Cleaners.

With complete factory arrangement, precision CNC machines, strict production standard and quality control system, and professional technicians, IOXYGEN® has won good reputation in this field for 40 years.

We have been devoting to develop new products. In the following, we would particularly introduce that the most popular **UL & CUL listed** regulators are now available in **4 NEW types**.

NEW

NEW

▲ Knob type

100-FL Series FLOWMETER REGULATOR

Weight: 0.8 kg

- ▶ Single stage construction & MIG/TIG applications for **light to medium duty**.
- ▶ **More convenient and economical style.**
- ▶ Machined brass body.
- ▶ A safety relief valve design for safe operation.
- ▶ Piston design with presetting outlet pressure at 3.5 BAR.
- ▶ Available with 10 feet (3m) hose.

25 Series PRESSURE REGULATOR

Weight: 1.4 kg

- ▶ Single stage construction for **medium to heavy duty**.
- ▶ Sintered metal inlet filter for trapping impurities.
- ▶ Forged brass body and chrome housing cap.
- ▶ Oxygen regulator with safety relief valve is set for safe operation.
- ▶ Neoprene diaphragms.
- ▶ **Knob type for more smooth and accurate pressure adjustment.**

NEW

▲ Forged brass bonnet

NEW

▲ Knob type

101-LM Series FLOWGAUGE REGULATOR

Weight: 1.2 kg

- ▶ Single stage construction & MIG/TIG applications for **light to medium duty**.
- ▶ Forged brass body.
- ▶ **Forged brass bonnet for more durability.**
- ▶ Neoprene diaphragms.
- ▶ Sintered metal inlet filter to trap impurities.
- ▶ Safety relief valve is set for all gases.

314RH Series FLOWGAUGE REGULATOR

Weight: 0.8 kg

- ▶ Single stage construction & MIG/TIG applications for **light duty**.
- ▶ Machined brass body & housing cap
- ▶ Neoprene diaphragms.
- ▶ Sintered metal inlet filter to trap impurities
- ▶ Built-in safety relief valve is set for all gases.
- ▶ **Available with 10 feet (3m) hose.**
- ▶ **Knob type for more smooth and accurate pressure adjustment.**
