

IOxygen[®]
www.ioxygen.com

MORRIS was founded in 1977 with headquarter in Taiwan. It has enjoyed a great reputation by providing full range of superior quality products of gas welding and cutting equipment to its worldwide customers.

All the design and manufacture of Morris' products strictly conform to ISO and international standard. Its quality management system and procedure of the production are also complying with ISO 9001 & ISO13485. Besides, Morris also has obtained the certificates of UL, CE and GMP for its industrial and medical products.

Morris is not only your best partner but also makes your life safer and easier.

Enjoy it on the professional gas welding & cutting equipment and medical apparatus.

PROFESSIONAL INDUSTRIAL GAS WELDING & CUTTING EQUIPMENT

Promise to give you...
Professional Quality and Safest Devices.

KITS

AGCW-28P LIGHT DUTY

Net Weight: 3.20 kg

AGCW-33P MEDIUM DUTY

Net Weight: 4.60 kg

- ▶ Welding and cutting kit.
- ▶ Cuts up to 150mm.
- ▶ Welds up to 25mm.
- ▶ **Twin wheel circle guide** for smooth operation.
- ▶ **Double o-ring seal** for gas leakage prevention.
- ▶ **Stainless steel needle valves** for easy and accurate flame adjustment.

HCW-34P HEAVY DUTY

AGCW-26P LIGHT DUTY

Net Weight: 7 kg

REGULATORS

311GA BALLON FILLER REGULATOR

Net Weight: 0.60kg

25 Series / 101 Series SINGLE STAGE REGULATORS

- ▶ Super popularity medium duty regulators are for **single stage construction**.
- ▶ Forged and machined brass bodies are available.
- ▶ Neoprene diaphragm.
- ▶ **Ergonomic knob for easy switching**.
- ▶ Oxygen regulator with safety relief valve.
- ▶ Sintered metal inlet filter to trap impurities.

25 Series

101 Series

▲ SIDE ENTRY

▲ BOTTOM ENTRY

HAND CUTTING TORCHES

AG-511

- ▶ Cuts up to 500mm.
- ▶ Forged brass head for durability.
- ▶ Stainless steel needle valves and tubes.
- ▶ Lever with **hold-down button** for easy operation.

1607

- ▶ Internal tubes are protected by **strong brass barrel** for robustness and reliability.
- ▶ **Slot** is provided to hold push button for **controlling flame**.

62-3 / 62-3F

70° HEAD

180° HEAD

AG-318

WELDING TORCHES

- ▶ Welds up to 8 mm.
- ▶ Lightweight for easy operation.
- ▶ Forged brass body for durability.
- ▶ Stainless steel needle valves for accurate flame adjustment.
- ▶ 9/16" thread.

19-6

H-19-2S (LPG)

D-50-C

1390N

AW-501 S TYPE WELDING TORCH

- ▶ Approved by **SGS leakage test**.
- ▶ Ergonomic handle.
- ▶ Welds up to 0.5mm-3mm.
- ▶ Torch connection thread sizes: G1/4"-R.H., G3/8"-L.H.

FLASHBACK ARRESTORS

H188 / H288

Net Weight: 0.14kg / 0.16kg

- ▶ H188 **for Torch**
- ▶ H288 **for Regulator**
- ▶ Max. pressure: Oxy 10bar / 15bar
Ace 1.5 bar
- ▶ Function: **Non-return valve**
Dust filter
Flame arrestor
